## Welcome

Since our inception in 1987, Lee Electric Supply has been committed to providing electrical products and service that exceeds expectations, while building long-term relationships with our valued customers, suppliers and associates—based upon honesty, trust and fairness.

We are a family-owned and independent business with a rich history of providing quality products to contractors throughout northeastern Pennsylvania. Our construction projects include hospitals, schools, universities, auto dealerships, housing complexes, parks, street lighting projects and healthcare, institutional and commercial segments. We also eagerly service residential, commercial and industrial markets.

Through a dedicated and expert staff, the most reliable manufacturers and a tenacity to lead in customer service, Lee Electric is excited to build a relationship with your organization. We have received numerous industry and community awards for our service, distribution abilities and community service.

We thank you in advance for taking the time to learn a little more about our operation.

## Our Family

Our family-owned and operated business now serves nine counties in northeastern Pennsylvania. Jack Lee is the owner and CEO of Lee Electric Supply. Jack has over 50 years of experience in the electrical wholesale business. Our staff of 25 includes Mr. Lee's wife Virginia, son John, daughter-in-law Kathi, and three of his four daughters, Sandy, Peggy and Judy. Also joining the staff as a third generation of the Lee family is Matt. All are involved and active in various local community organizations and charities.

Lee Electric and its employees have volunteered and offered sponsorships to many local, non-profit organizations such as The Northeast Komen Foundation, Saint Joseph's Center, and The Catherine McCauley Center to name a few.

Lee Electric has several non-family employees, many of which have been with us since our inception in 1987. The average employee has 18 years of service with Lee Electric and 30 years of experience within the electrical distribution field. All employees are part of our family, including our mascots Bentley (a three year old Bassett Hound) and Midnight (a three year old English Labrador/Newfoundland mix).

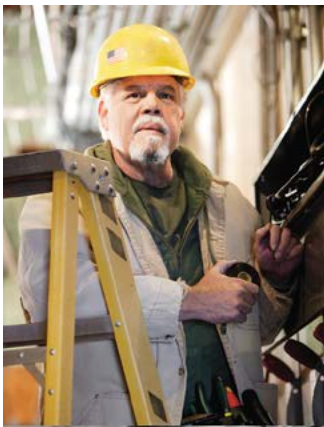

Our family has established trusted relationships with both our manufacturers and contractors. These relationships help to keep our customers one step ahead of their competitors.

*We look forward to working with you!*

# SIEMENS

[www.usa.siemens.com/powerdistribution](http://www.usa.siemens.com/powerdistribution)

## The new generation of Panelboard and Switchboard products

### Panelboards

Siemens next generation of panelboards offers the high level of engineering and innovation you've come to expect from the leader in power distribution technology. Engineered specifically to provide maximum flexibility, the new designs simplify wiring and reduce material requirements making them easier to install and less costly than competitive products. At the heart of the product line is the extensive research and technology found among Siemens circuit protection devices – both fusible switches and molded case circuit breakers.

### Switchboards

Siemens modular switchboard design provides a broad range of features and capabilities for a wide range of applications. Every aspect of design of Siemens switchboards has been aimed at improving layout convenience, reducing installation costs and minimizing the impact and cost of changes to the system.

Lee Electric is a Full-line Stocking Distributor for Siemens Distribution and Controls

# Switchgear and Electrical Products

Lee Electric is known for having the equipment, supplies and tools in stock that are needed on a daily basis. We work hard to understand the ins-and-outs of each contracting customer. By understanding each entity, we build solid relationships and the confidence that we will have what is needed—today.

Our Switchgear Department handles all electrical distribution equipment, take-offs, negotiations and project management. Because we are independent, decisions are quick and tailored to make sure our customers are profitable and efficient.

Lee Electric Supply has a dedicated person to respond to all of your electrical distribution and controls needs, and he has over 40 years of experience in this field.

We maintain a fleet of delivery vehicles ready to respond to your site. Our drivers are familiar with the region, as well as the habits and expectations of each valued customer.

# Lighting Products and Solutions

Lee Electric Supply has an outstanding reputation for our lighting services, products and solutions. Our Lighting Department is responsible for quoting, negotiating, and project management

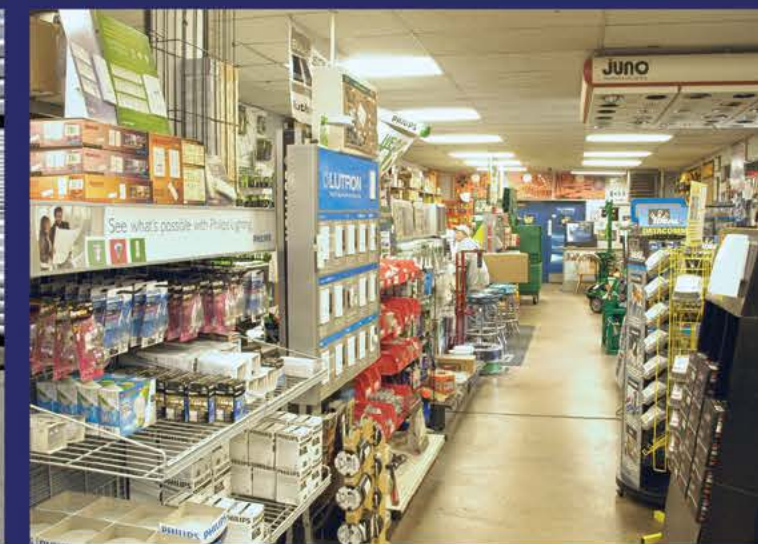

for all project sizes. In addition, we boast complete design services for commercial, industrial and residential projects. Our staff can assist with layout and product selection.

Other lighting services include energy audits, return on investment formulations, and identifying and working with utility rebate programs. Lee Electric proudly employs certified professionals.

# Our People Make the Difference

Our people make the difference. That's not just another advertising tagline—it's our commitment to our customers. Satisfying your electrical contracting needs is what we do best. With over a quarter century of service and expertise in the electrical supply industry, we have positioned ourselves as the preeminent source for all your electrical contracting needs. We remain steadfast in our dedication to provide you with effective solutions for all your electrical projects, from offering on-site assistance and planning for large applications to helping you select the ideal lighting for your interior and exterior needs.
